Board of Directors

According to the Articles of Association, the Board of Directors must consist of three to eight members, with at most five deputy members. The control issues arising at Board meetings are dealt with by the Board where appropriate following preparation by the remuneration committee or audit committee. In addition, the company's auditors report directly at least once a year to the Board their observations from the review and their assessments of the company's internal accounting control.

Besides the ongoing follow-up and monitoring of business, over the year the Board of Directors has dealt with strategies, expansion to new countries, capital structure and organisational issues.

Remuneration committee

The job of the remuneration committee is to examine the principles for remuneration, including performance-based remuneration and pension terms for the company's senior executives, and to give recommendations to the Board concerning these issues. Issues relating to the CEO's terms of employment, remuneration and benefits are prepared by the remuneration committee and decided upon by the Board of Directors. This committee also discusses the general starting points for setting salary levels within the Group.

At the Annual General Meeting on 2 May 2016, the Board will present for the approval of the Board proposals for principles for remuneration and other terms of employment for the corporate executive.

More information on remuneration to the CEO and other corporate executive staff can be found in the annual report, Note 9.

The remuneration committee has held three meetings over the year, as well as maintaining constant contact by telephone and e-mail.

Audit Committee

The job of the audit committee is to prepare Board work on quality assurance of the company's financial reporting. This committee maintains constant contact with the company's external auditors in order to keep abreast of the focus and scope of the audit and to discuss views on the company's risks. Decisions by the Board are required for services other than auditing exceeding 10 per cent of the budgeted audit fee. This committee is also tasked with providing its evaluation of the audit work to the nomination committee and with assisting the nomination committee with production of the nomination committee's proposals to the Annual General Meeting concerning the election of auditors and the size of the audit fee.

The audit committee consists of three Board members. The Chairman of the audit committee prepares and convenes the meetings of the audit committee.

The audit committee has held four meetings over the year, as well as maintaining constant contact by telephone and e-mail.

External auditors

The Annual General Meeting which was held on 5 May 2015 elected the firm of auditors Ernst & Young AB (EY), with Rickard Andersson as principal auditor, for the period up to the 2016 Annual General Meeting.

The auditors review the Board's and the CEO's management of the company and the quality of the company's accounts documentation.

The auditors' report on the results of their review to shareholders by means of the auditor's report, which is presented at the Annual General Meeting. In addition, the auditors submit detailed reports at the meetings of the audit committee with the committee and to the Board of Directors at least once a year.

The company's half-yearly and nine-monthly reports have not been reviewed by the auditors. This is a deviation from the recommendation in the Swedish Code of Corporate Governance. The Board is of the opinion that any such review on the basis of a cost perspective is not necessary, given the company's degree of complexity and business risks.

EY performs certain services for Proact in addition to audits. When EY is engaged to provide services other than auditing, this takes place in accordance with the rules decided upon by the audit committee for approval of the nature and scope of the services and remuneration for the same. Proact is of the opinion that execution of these services is within the guidelines and has not impacted upon EY's independence.

Further information on remuneration to the auditors can be found in the annual report, Note 8.

President and Group executive

Jason Clark, born in 1973, has been the CEO and President of Proact IT Group AB since 8 January 2016. He was employed by B2net Ltd in 2001, which subsequently became part of Proact in 2011. His previous position was as Head of Business Unit UK, which covers the company's business in the United Kingdom. Jason Clark owned 92,000 shares in the company as at 31 December 2015. Jason Clark has no significant shareholdings or co-ownership in companies with which Proact has significant business relationships.

The CEO manages operations in accordance with the instructions of the Board of Directors and the approved distribution of work between the Board and the CEO. The CEO is responsible for keeping the Board informed and for ensuring that the Board is provided with the requisite decision data. The CEO presents reports to the Board but is not a Board member. This is in accordance with applicable policy, in which either the CEO or another senior executive must be a Board member in the parent company. In ongoing contact, the CEO keeps the Chairman informed of the development and financial position of the company and the Group besides providing periodic reporting.

The CEO and other members of the corporate executive hold regular meetings in order to review results development, update forecasts and plans, and make decisions on various issues.

As at 31 December 2015, Proact's Group executive consisted of the CEO and eleven other senior executives.

The subsidiaries running operations report to the relevant Business Unit Directors, who in turn report directly to the CEO. Reporting takes place on a monthly basis, with more in-depth quarterly reviews of the operations in question. The Boards of Directors of the subsidiaries principally consist of members of Proact's Group executive. The Chairman positions at the subsidiaries are held either by the CEO of Proact IT Group AB or by the relevant Business Unit Directors.

Remuneration to senior executives

The Annual General Meeting held on 5 May 2015 assumed principles concerning remuneration to senior executives, which means that remu-

neration must be made up of a set salary, variable remuneration, other customary benefits and pension. Total remuneration to officers must be in line with market conditions and competitive on the labour market on which the officer is active, and significant performance must be reflected in the total remuneration.

The set salary and variable remuneration must be related to the responsibilities and authorisations of the officials. The total variable remuneration for all senior executives must be maximised (to an amount corresponding, on average, to eight monthly salaries), based on results in relation to targets set, and coincide with the interests of shareholders.

Provision of information

Proact strives to maintain communication with its shareholders and other stakeholders which is correct, clear, factual, reliable and quick. It must also be characterised by openness.

Proact regularly publishes interim reports and annual reports in Swedish and English. Events which are deemed to affect rates are published as press releases. The Proact website also includes a large amount of company information which is updated regularly.

In addition, Proact communicates with the capital market and the media by means of meetings with analysts and journalists in connection with the publication of the interim reports and annual reports. Representatives of Proact also take part regularly in various meetings of shareholders and analysts.

The Board's report on internal inspection

Inspection environment

Internal controls at Proact are based on a control environment which includes organisation, decision paths, authorisations and responsibilities. This is documented and communicated in steering documentation such as internal policies, guidelines and instructions. For example, this is applicable to the distribution of work between the Board of Directors and the CEO, and between the various units within the organisation, and also via instructions for rights of authorisation, accounting and reporting, etc. The Board follows up to ensure compliance with set principles for financial reporting and internal controls, and also maintains the appropriate relationships with the company's auditors.

The corporate executive reports to the Board based on established procedures. The corporate executive is responsible for the system of internal controls which is required for handling significant risks in ongoing operations. For example, guidelines and instructions for various officials are compiled in order to reinforce understanding and the importance of their respective roles, and hence also to contribute towards good internal control.

Risk assessment and inspection activities

The Board holds overall responsibility for risk management. Clear organisation and decision-making arrangements aim to create good awareness of risks among employees and well considered risk-taking. The risk assessment includes identification, charting and assessment of risks at all levels within the Group. Activities and reporting take place regularly in order to maintain good internal control, and hence to prevent and detect risks.

Information and communication

Essential guidelines, manuals, etc. which affect financial reporting are updated and communicated regularly to the relevant personnel within the Group. There are both formal and informal information channels for the corporate executive and Board for essential information from employees. For external communication, the company complies with the governing rules discussed previously.

Follow-up

The Board receives monthly financial statements. The Board regularly evaluates the information submitted by the corporate executive. The work of the Board also includes ensuring that measures are implemented with regard to any shortcomings and proposals for measures which have arisen during external audits. Given the size of the company, there is no separate department for internal audits. Instead, this work is carried out from the Group finance function. The outcome is reported to the CEO, CFO and Board of Directors.
